in the DISTILLERY DISTRICT

The Festival of Architecture and Design is here again, and the folks at **ERA Architects**, **Spacing Magazine** and **[murmur]** are throwing another Toronto the Good party to celebrate me, your faithful city. This year the **Toronto Society of Architects** are also co-hosting, and they will be announcing the winner of their "Design Matters" competition, which will be on display during the party. We also want to introduce all of you to **Wireless Toronto**, an all-volunteer community group celebrating their 2nd anniversary providing free community wireless hotspots in cafés, bars, and outdoor places like Dufferin Grove Park and Dundas Square. Come by anytime for some food, drink, interactive and wireless games, and a room full of nice people who care about me.

Love, **Toronto**
